Quarterly Treatment Capacity Survey

The Arizona Department of Health Services (Arizona Revised Statute §36-109) is required to collect information each quarter from hospital, health care facility and outpatient substance abuse treatment providers that provide substance use treatment.

Please find the survey link for Quarter 3 (July 1, 2022 to September 30, 2022) of Calendar Year 2022 below. ADHS is requesting that your facility complete the survey no later than **Dec. 15, 2022**:

Here is the Survey Monkey link: <https://www.surveymonkey.com/r/KYW29NW>

The information you submit is important to assessing Arizona's progress in meeting the treatment needs of people throughout the state. The information is analyzed and compiled into a quarterly report that is provided to the Governor, the Presidents of the Arizona House and Senate, and the Arizona Secretary of State's Office. The quarterly reports are also posted on the ADHS opioid website at <https://azhealth.gov/opioid> under the reporting tab.

If you have any questions or comments, please email azopioid@azdhs.gov and an ADHS staff will reach out to you.

Improve Outcomes for Patients with COVID-19

**Call for P2P Support from Specialists with a Response within a Business Day
(833) 937-1777**

Arizona's Provider-to-Provider (P2P) Warmline is an educational resource for providers regarding COVID-19. The P2P warmline is a novel platform, which allows providers to contact specialists and get information about the latest Centers for Disease Control (CDC) guidelines on COVID vaccines, treatment of acute infections, and the latest on Long-COVID care. Within 24 hours, specialists will respond to queries with up-to-date guidance and educational information. Learn more at callazp2p.arizona.edu.
