

# Pyx Health & Banner Health Plan

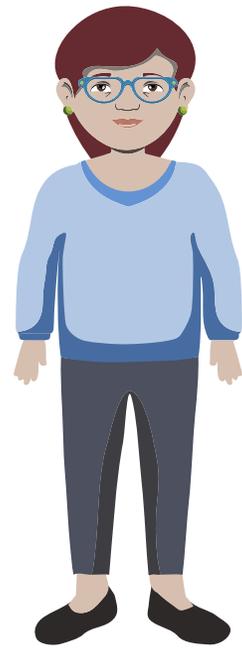

# The Agenda

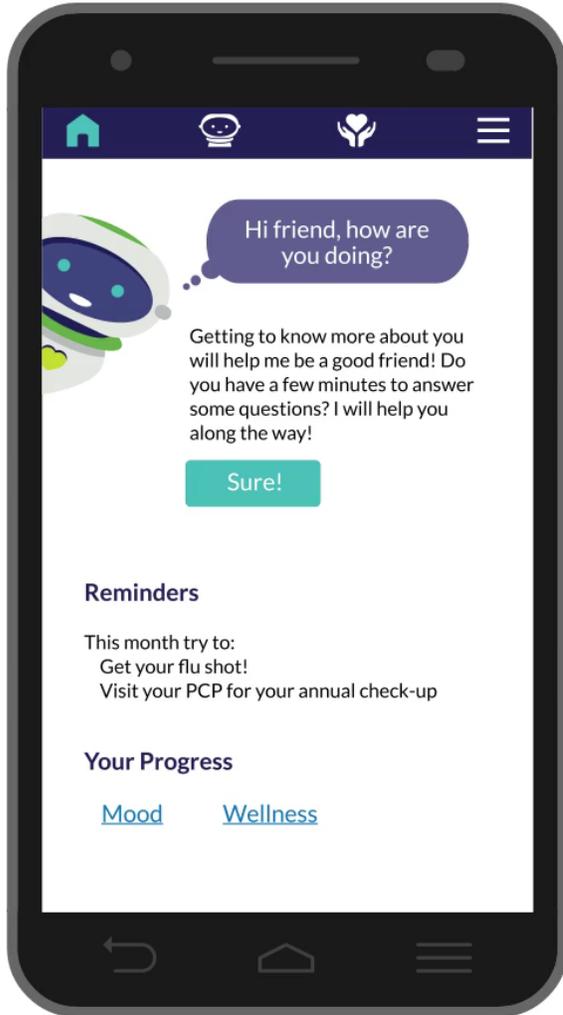

1. Review the Pyx health App.
2. Explain how the Pyx health App. benefits your members
3. Show you how to onboard your members

**90%** of healthcare happens outside of the traditional care setting

Hi friend, how are you doing?

Getting to know more about you will help me be a good friend! Do you have a few minutes to answer some questions? I will help you along the way!

Sure!

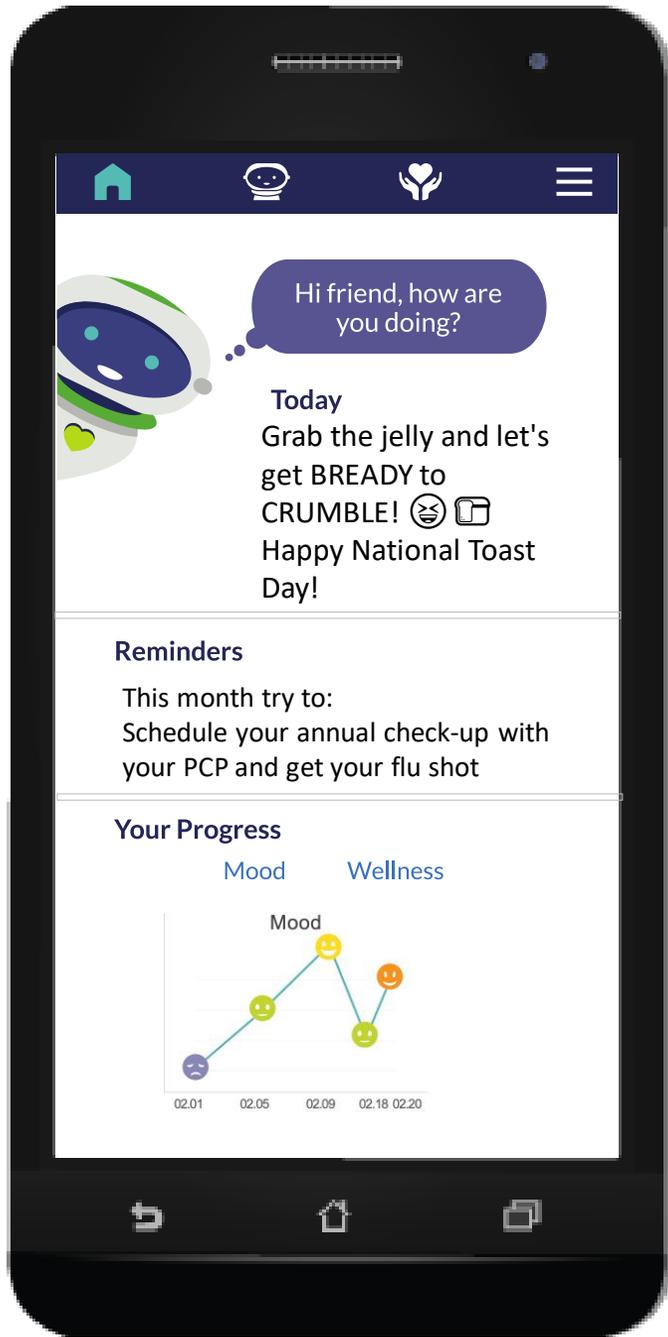

### Reminders

This month try to:  
Get your flu shot!  
Visit your PCP for your annual check-up

### Your Progress

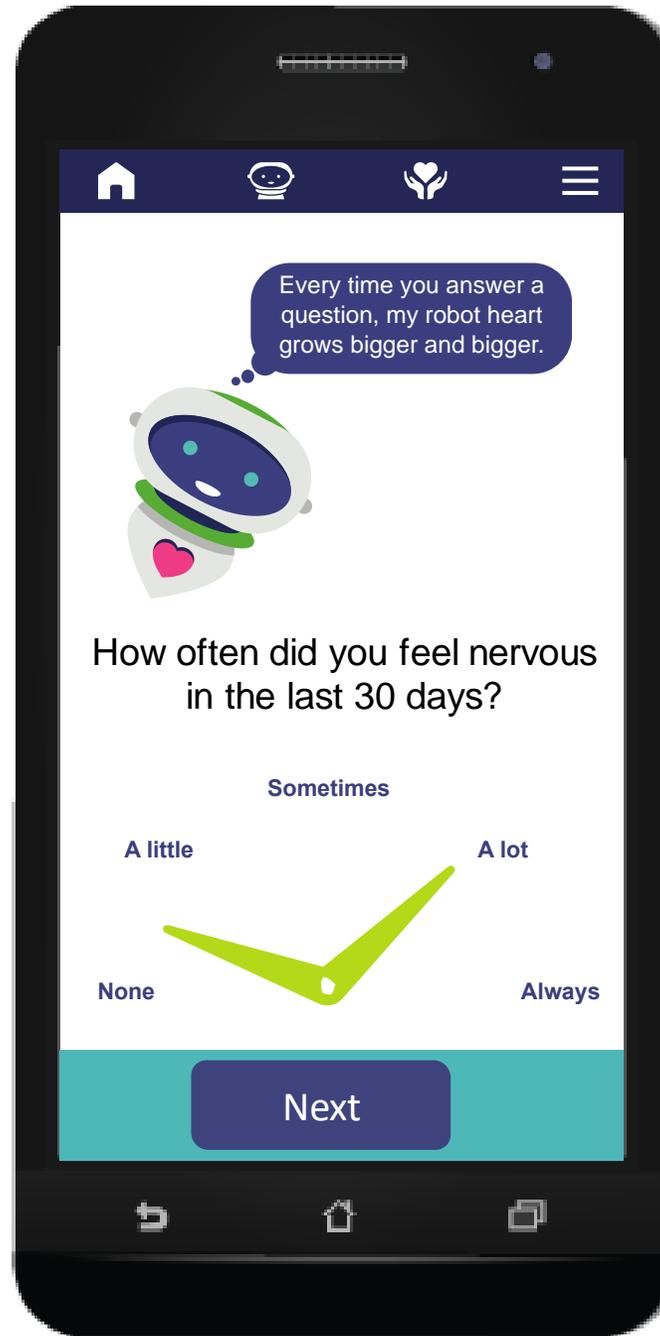

[Mood](#)

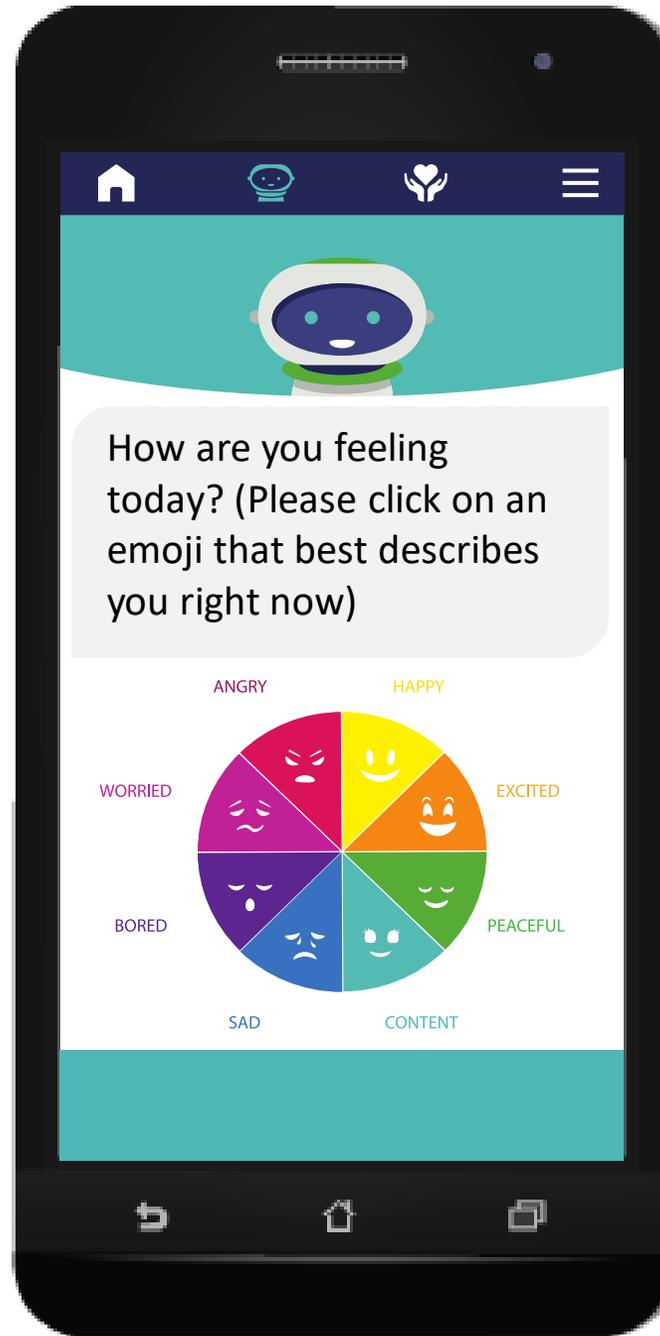

[Wellness](#)

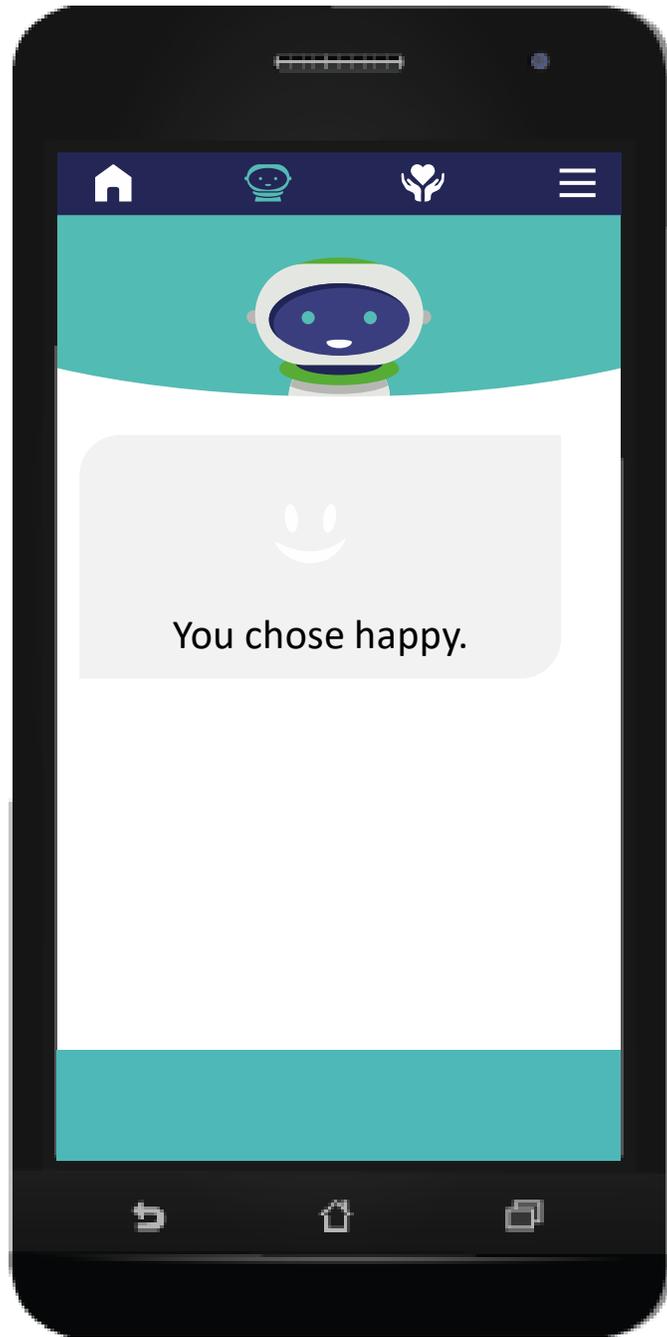

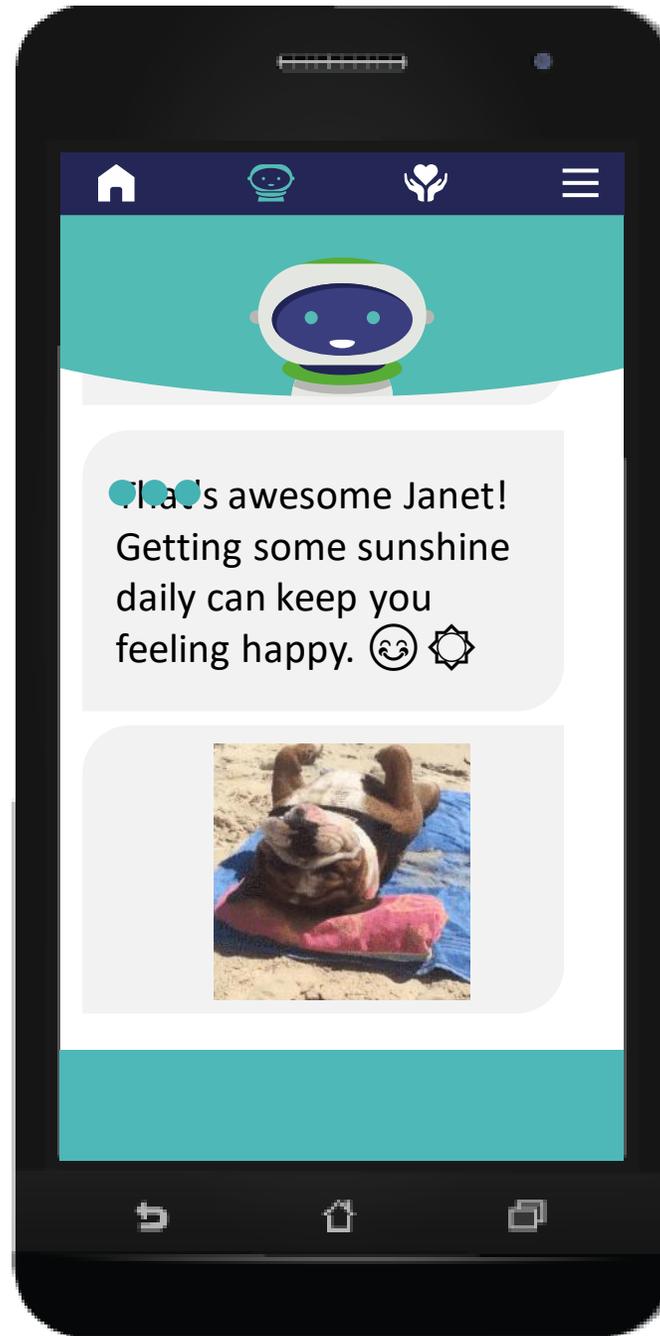

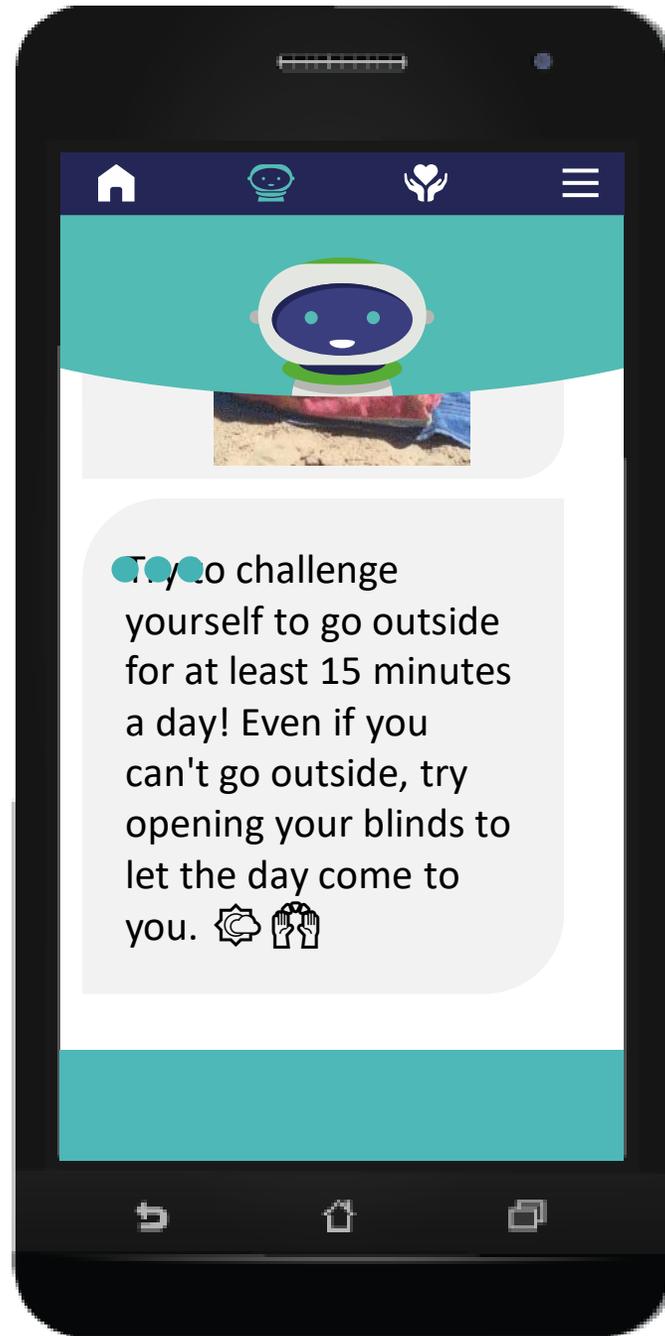

# Measuring Disposition

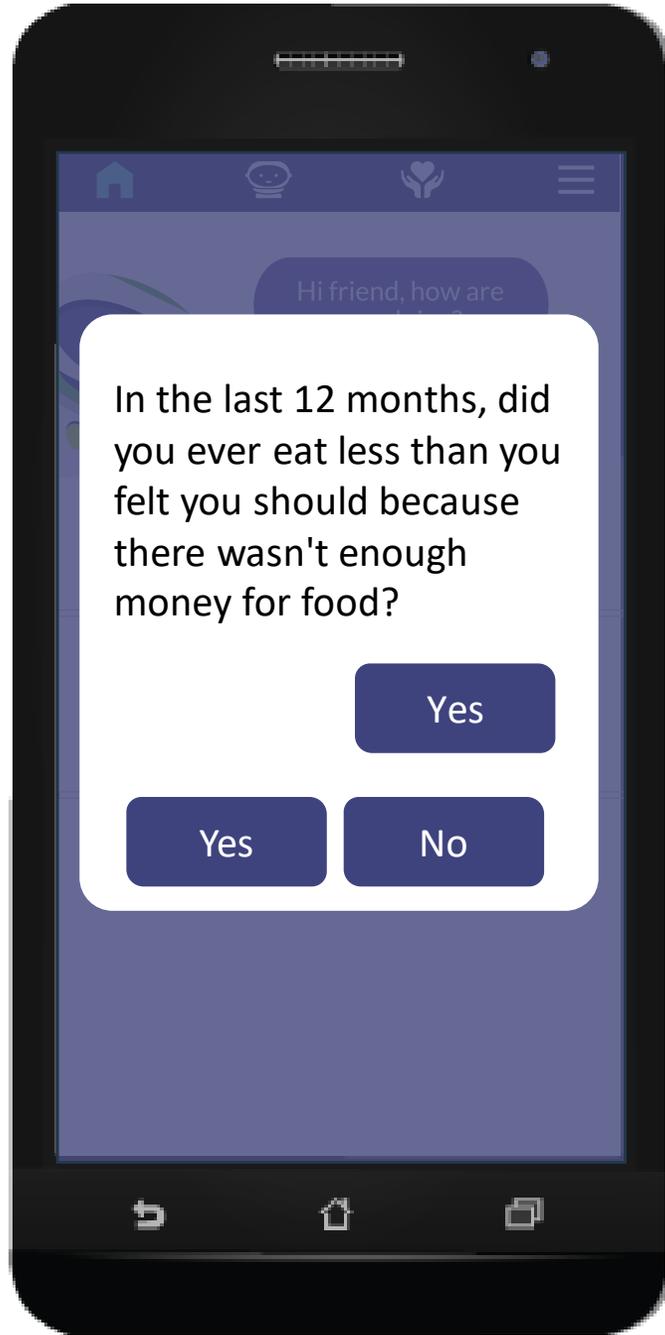

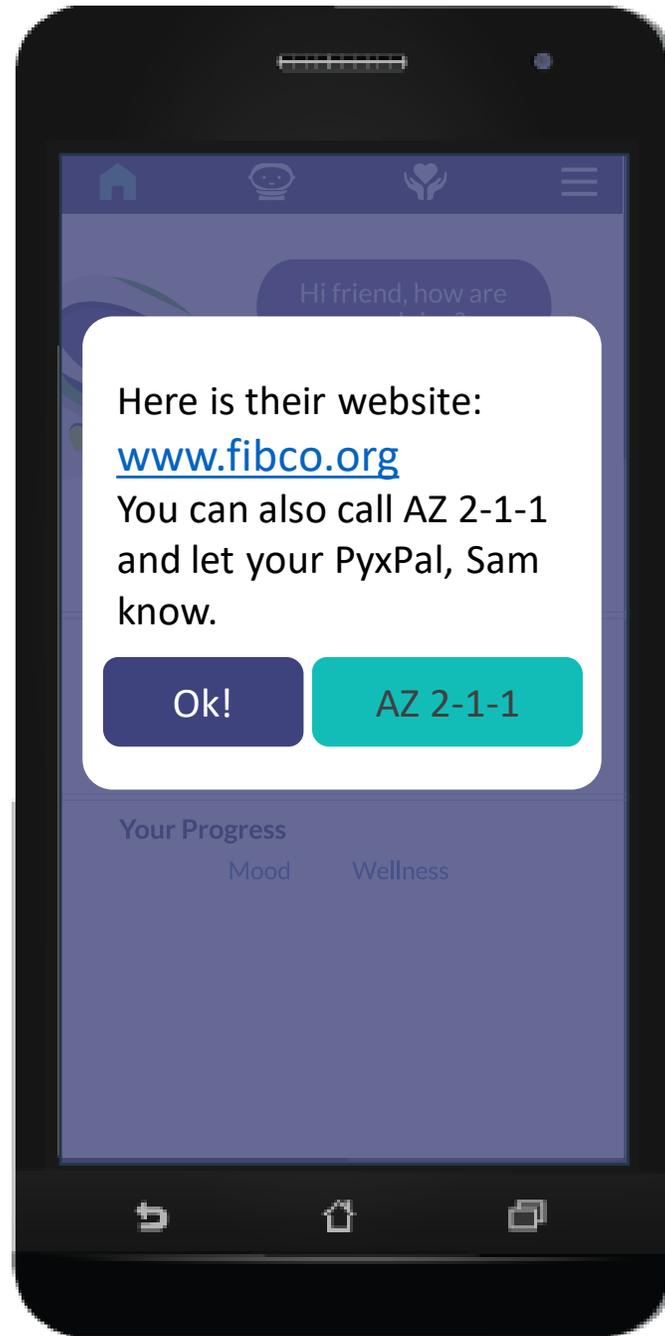

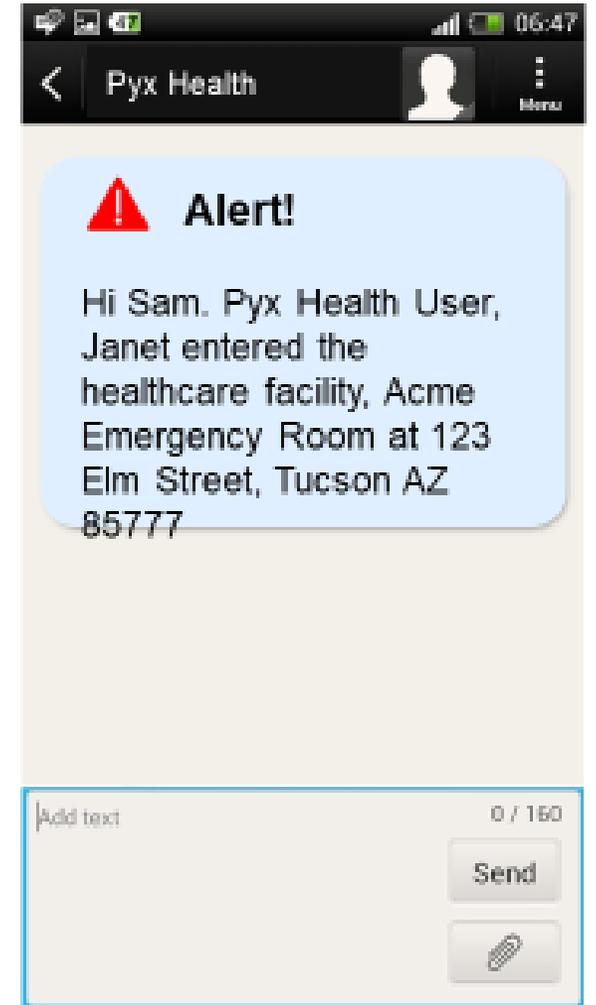

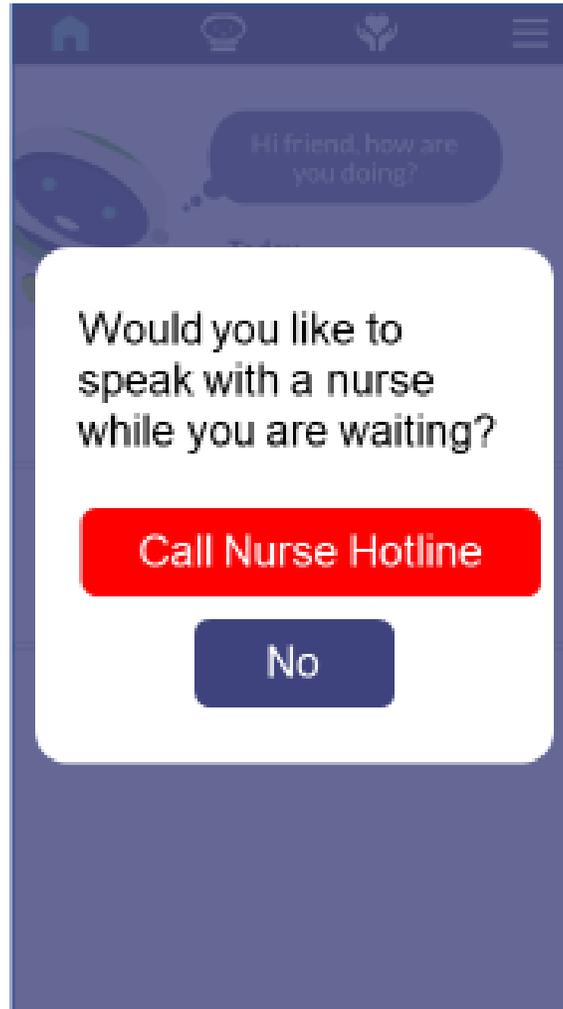

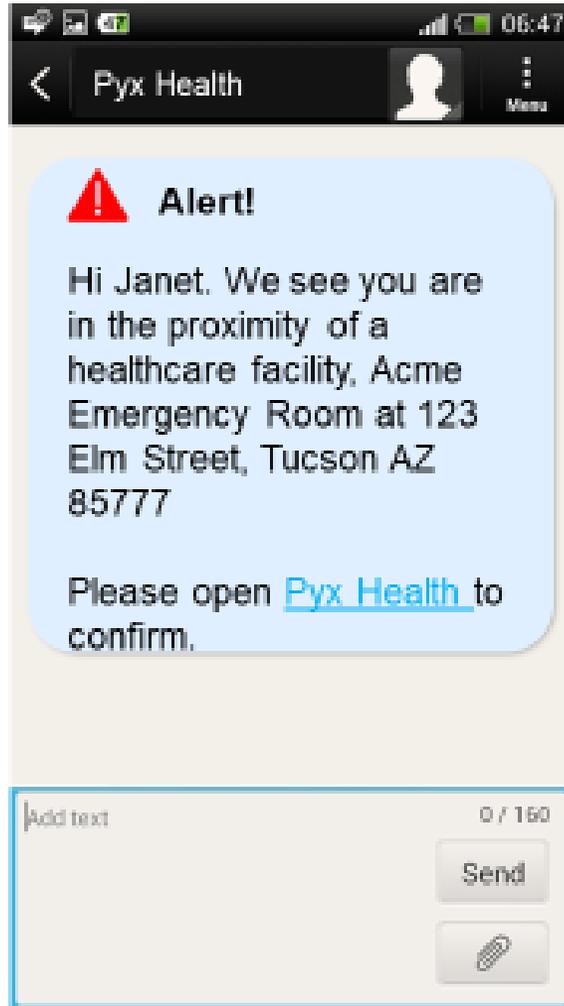

## Social Determinants of Health

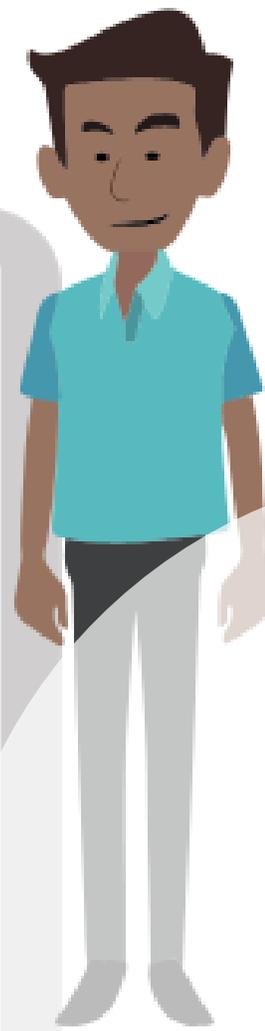

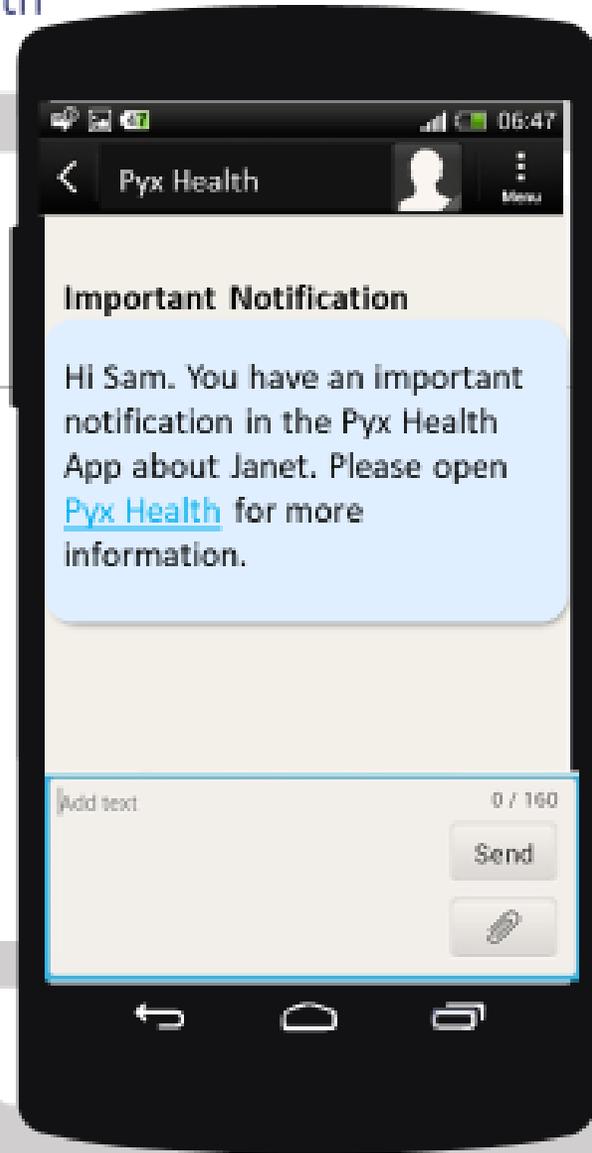

Knowing when a member is in crisis, being able to intervene, and alert their natural supports is critical in stabilizing our members.

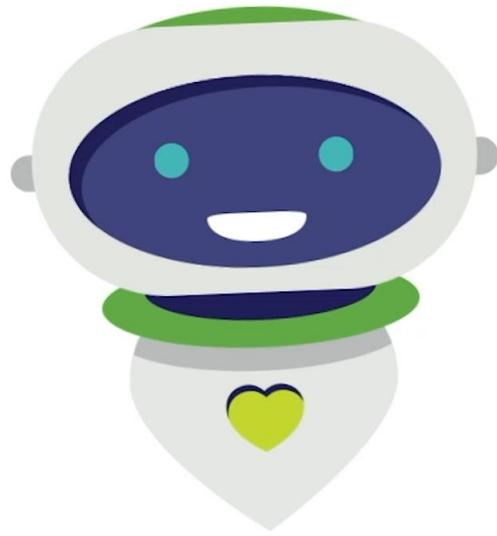

## Social Determinants of Health

PyxPal

# Proven Results

What people are saying ...

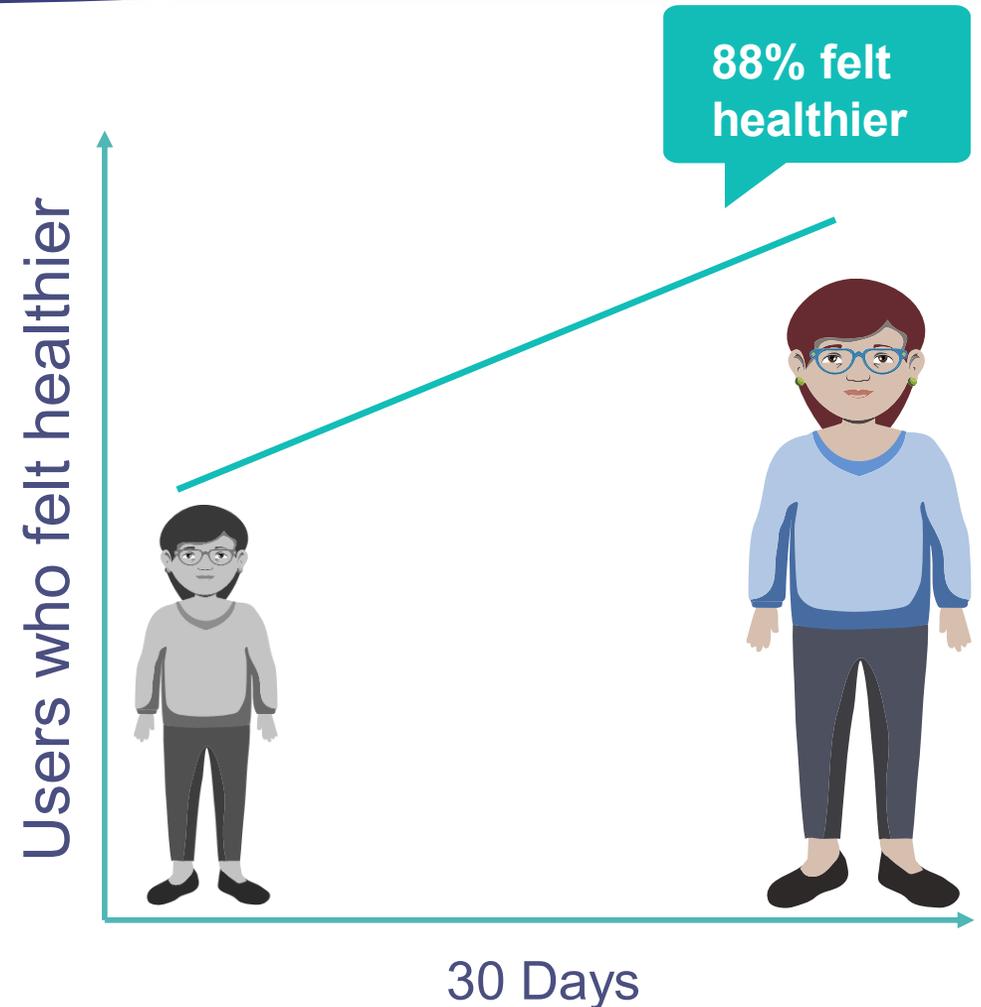

**65%** of members said the app made them **feel more connected** to their healthcare team

**76%** said they feel like they've **created a friendship**

**89%** of members said they go to the **Pyx Health** app when **they need help**

**81%** of members **look forward to interacting** with Pyxir

# Taking care of *you* and your *patients*

- An extension of you
- Promotes self management
- Leverages the natural supports around the patient
- Improves the perception of care
